

Supplemental Statement Regarding Fee Exemption

In accordance with Section 1.1116 of the Commission's Rules, the Applicant is exempt from the filing fee associated with the attached modification application.

The Commission does not require filing fees for applications filed for the sole purpose of modifying an existing authorization in order to comply with new or additional requirements of the FCC's rules.¹ This application seeks only to add narrowband emission designators to existing licensed frequencies to comply with the FCC's narrowbanding requirements (see WT Docket No. 99-87).

Therefore no filing fee is required for this application.

¹ 47 C.F.R. § 1.1116(a).
